

Website: 1

http://www.hoagiesgifted.org/hoagies_kids.htm

Lots of activities but the layout of the page and the interface isn't very nice. It looks like it is all over the place. It has lots of links for educators, children and parents.

Website 2:

<http://resources.prufrock.com/GiftedEducationBlog/tabid/56/articleType/ArticleView/articleId/42/Motivational-Activities-for-Gifted-Students.aspx>

This site is all about motivating students but again not a very nice or friendly looking website. I think it could be a little more child friendly to motivate the student to want to go back to the website.

Website 3:

<http://www.educationatlas.com/gifted-education-activities.html>

A nice website with some fun titles of interesting topics for G&T students.

There are lots of website available but none with a focus on early years. I think a teacher would need to spend a lot of time searching for the right website for individual students needs.
